

Down-to-earth packaging.

We recognise that it takes a special breed to cope with the sometimes harsh and tough environment of life on the farm.

So, if you're after the very best in practical, robust, durable and leak-free blow-moulded plastic packaging, look no further than Blowpack's vast range of innovative yet functional agricultural containers.

Ranging from 200 ml bottles to 25 litre drums, our containers come in a variety of styles,

shapes, sizes and colours and boast some truly unique features including comfortable and easy to carry handles, excellent stackability, anti-pilfer closure rings and optional osmosis caps.

We also offer a decoration service to differentiate your products, including in-mould labelling, screen printing, plastic sleeving and adhesive labelling.

Simply give us a call to find out what we can do to help make your product grow.
